SECTION 3 – SERVICE DESCRIPTIONS (continued)

3.35 T-Remote (continued)

Features ordered beyond those listed above will carry the standard installation and monthly recurring charge, depending on customer location, as set forth in Section 4.1.32 of this Tariff. Back-up Lines, Fax Overflow, alarm and/or security monitoring services, and Remote Call Forwarding are not available with T-Remote.

3.36 Simpli-T Plus Service

Simpli-T Plus is a small to medium-size business offering that utilizes T-1 delivery of line side local exchange service and internet service. The local service and data transmission share the available bandwidth of 1.228 Mbps, employing the use of the entire available bandwidth for data transmission when voice lines are not in use. Voice service takes precedence over data and, as voice transmission is required, internet bandwidth is reduced to accommodate voice needs.

A minimum of six (6) lines of local service must be ordered with the Simpli-T Plus. The base monthly recurring charge includes the six required local lines as well as the hunting functionality for up to six lines. Additional lines can be added at an incremental charge per line. Trunks, DID, Point-to-Point Data/Voice, and PRI services are not available with this product. Pricing, depending on Customer location, is set for the in the Rates Section of this Tariff.

(T)

Customer Premise Equipment (“CPE”) is included as part of the basic Simpli-T Plus package and is available for use by the Customer as an enabler to this application. Number of lines provisioned and the line functionality determines the CPE to be used. This equipment remains the property of the Company. At the time Customer cancels service with the Company, this equipment will be recovered. Only the Company is allowed to service and maintain the equipment. The Customer is not allowed to make changes to Company provided CPE.
